## PTRZ50X16 RADIAL DRILLING MACHINE

### Standard accessories:

- Box shape worktable
- Taper sleeve
- Tool releasing Wrench
- Drift
- Eyelet bolts

### Special accessories:

- Quick instead chuck
- Tapping chuck
- Grease gun

### Characters :

- With wide range of speed and feed, with manual,  $\phi$  power and fine feeds. The feed of machines are very easily engaged and disengaged at any time.
- With safe and reliable feed safety machine, all parts easy operation and change.
- All controls centralized on the head stock easy operation and change. Clamping for assemblies and speed change of spindle achieved by hydraulic power, cmle is sensitive and reliable.
- Main parts are made by machine center which import from KIA with high precision and efficiency, ensuring reliability and high quality.
- Integrating technology for casting parts is excellent, adopting casting equipment, ensuring high quality of material for basic parts.
- Spindle parts are made by special high quality steel heat treatment to be made by first class equipments, ensuring high strength and durability.
- Main gears are machined by gear grinding, the machine ensuring high precision and low noise.
