PTCS35 SAWING MACHINE

Features:

- Possess the rotary device which can cut in various angles (any angle 30° -135°)
- high precision, excellent rigidity, convenient operation and complete variety of safety devices etc
- equipped with metal drawer and cooling devices in the chassis
- widely applied in such industries as construction, machinery, physical training apparatuses, producing thief-proof doors and windows, and decorating.
- can cut the ferrous metals, stainless steel, aluminium alloy in various shapes and components which are difficult to cut in machine.
- the key parts are imported from Germany ensure the high precision of products.

ii

SPECIFICATION	PTCS35
Rotational Speed (n/min)	18/36
Saw blade size	Ø 350x3
Saw Scale	90° 45°
□ □ □ □	160x100 120x100
∅	Ø125 Ø 100
∅	Ø 90 Ø 75

Starting Power (KW)	1.9/2.6 0.85/1.5
Voltage (v)	380
Suitable pressure	MPa
Outer Size (LxWxH)	790X850X1620mm
Packing Size (LxWxH)	900x900x1900mm
Weight (kg)	360
