PTK11 SERIES 3-JAM SELF-CENTERING CHUCKS:

The PTK11 series chucks are of short cylinder mounting type and must be connected to the spindle noses by adaptors. It includes model PTK11, PTK11A, PTK11C chucks.

Model PTK11 chucks are provided with a set of internal jaws and a set of external ones which can be used separately.

The jaws of PTK11A and PTK11C chucks are composed of two screw connected parts. They can perform either as internal or external jaws through adjustment.

Model PTK11A chucks are supplied with two-piece jaws as per GB4346(ISO3442). Model PTK11C chucks are supplied with traditional structure two piece jaws.
