PTT11 SERIES POWER-OPERATED ROTARY TABLE:

Features:

The PTT11 series power-operated rotary table is one of the main accessories of the milling machine, It is forced by power or operated. And can be make circular cutting, circule curved surface processing, straight line processing of the plane and some line segments, It can work on the drilling machine, slotting machines and planing machines in different process according to the fixed shares.

Specifications	PTT11320	PTT11400
Diameter of table	§¶320 mm	§¶400 mm
Morse taper of the center hole	4#	
Diameter of the center hole	§¶40 mm	
Width of the T-slot	14 mm	
Width of the locating key	18 mm	
Modules of worm gear	2.5	3.5
Transmission ratio of the worm gear	1:90	
Graduation of the table	360jã	
Rotating angle of table woth one revolution of the worm	4jã (1' per graduation)	
Minimum reading of vernier	10"	
Indexing accuracy	60"	
Net weight	83 kg	145 kg
Gross weight	100 kg	165 kg
Case dimensions	690jÁ530jÁ253 mm	820jÁ640jÁ280 mm
